

## Adventure Hybrid - Faster than a Hybrid or Comfort bike, more durable than a Road Bike!

Road bike ride with all terrain capability. This Adventure Hybrid tackles everything from paved roads, bike paths, dirt roads or groomed trail system. These bikes offer flat bars and high-rise stems; more comfort and control than a regular road bike; greater capability than a hybrid bike with wider tires and performance geometry; lighter than mountain bikes.

Componentry Features: 24-speed Shimano M3100 Alivio, Powerful Disc Brakes, Suspension seat-post, Suntour suspension fork, Shimano Cranks and Shimano Trigger Shifters.

Super comfortable Bumper Saddle. This special saddle has it's own suspension that supports the rider and absorbs the rumble of most road vibrations.

**Sizing Guide:** You'll only need to provide your height when requesting bike rental.
