

GREAT AMERICAN BIKE TOURS, LLC

COVID-19 Guidelines and Practices

Great American Bike Tours has always taken great pride in the cleanliness and sanitation practices used on all of our tours. This document details our strict practices for keeping all of us safe and protected while on our tours.

Vaccination Requirements

Every member of the GABT team is required to be fully vaccinated including any required/recommended boosters.

As of January 2022, GABT is requiring that **ALL** guests be fully vaccinated for COVID-19 in accordance with CDC protocols. This includes receiving any required/recommended boosters.

Approximately 14 days prior to your tour start date, each guest will be sent a “Vaccine Declaration” form which you will be required to complete and return along with your proof of vaccination card.

Group Size

It has always been our practice to keep our tours small in order to provide an outstanding experience. Maximum capacity for our tours is either 10, 14 or 20 people. Because of the limited group size, it enables us to easily adhere to social distancing guidelines.

Sanitizing Our Vans & Equipment

It has always been our practice to clean our tour vans each and every night while on a tour. We have increased this measure to now include sanitization. In adherence with CDC guidance for sanitization, each evening all vans will be:

- All door handles, cup holders, seat backs, and other vinyl and hard surfaces will be washed down with disinfectant cleaners.
- Seats and cloth surfaces will be vacuumed and sprayed with disinfectant spray.

Safety and Hygiene While Cycling

While we are cycling each day, provisions will be in place to make sure that we can all enjoy incredible cycling while staying safe. The following practices will be in place:

- Vans will have soap and water handwashing stations.
- Disinfecting wipes will be available at all times for use on hands, surfaces, handlebars, etc.
- Riders always cycle at their own pace so social distancing is in your control. We don't cycle in a “pack” on any of our tours.
- Since all guests are required to be vaccinated, each guest may use their own discretion with regard to wearing masks.
